CUSTOMIZED BASE FRAME

GGD150U

KEY FEATURES

1 FOOT OPERATED LIFTING

The rapid and precise high lifting air hydraulic unit with high speed ram travel saves time and boosts efficiency

2 EASY HANDSFREE ADJUSTMENT

Built-in manual foot pump makes adjustment easy and precise

3 TELESCOPIC CYLINDER

Fitted with a gearbox saddle (optional) the telescopic cylinder is also ideal for dismantling and remounting gearboxes

4 TRAVERSING RAM

Ensures a wide reach under the vehicle and makes it easy to move freely in the pit (S- and U-models only)

5 OPTIMUM SAFETY

Brake for fixation of traversing ram whilst lifting (S- and U-models only) and dead man's release (all models)

6 NO UNINTENDED MOVEMENTS

Spring loaded wheel supports prevent unintended movements when lifting more than 800 kgs

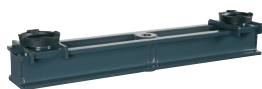

✓ MADE IN DENMARK

Built to the highest quality standards which guarantees you a safe and efficient operation and long lifecycle

OPTIMIZE WITH ACCESSORIES

T4 CROSS BEAM ADAPTOR 20 t

Ideal for supporting axles, whilst working on the differential gear. Two adjustable lifting saddles.

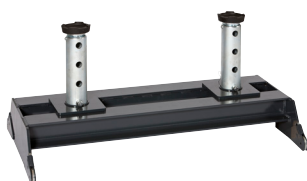

T5 CROSS BEAM ADAPTOR 15-11,5 t

Ideal for supporting axles, whilst working on the differential gear. Increases stability and offers adjustable width

T6 CROSS BEAM ADAPTOR 13 t

Ideal for inspection centres. Easy and precise adjustment of lifting saddles from the pit

AB SUPPORT BRIDGE 20 t

Perfect combination of safety and flexibility. The open frame gives you optimum traversing mobility

ABT SUPPORT BRIDGE 15 t

Perfect match with transmission jacks. The frame design offers both optimum support and traversing mobility

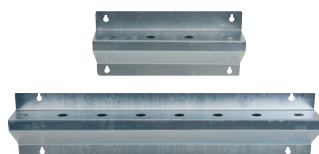

AS3 GEARBOX SADDLE 1 t

Perfect match for gearboxes. Tilts 10° in all directions for easy and accurate dismantling and remounting

FW2 / US SADDLE 10 t

Essential for lifting under various axle profiles (V-saddle) and lifting various chassis profiles (U-saddle)

VB1 / VB2 WALL BRACKET

Increases efficiency by organizing your extensions and saddles on the wall
